## The Tempest offers maximum shade and weather protection for commercial environments

This heavy-duty giant telescopic umbrella is built super-strong and is engineered to withstand wind gusts of 80km/h. The canopy arms are made from reinforced aluminium that is connected to an impressive 94mm mast with internal reinforcing channels for extra strength. The Tempest is quite simply the best non-permanent umbrella on the market today.

### Tempest Advantages

- Maintenance-free, long-life winding handle system
- All materials are fully corrosion resistant
- Telescopic mechanism opens and closes easily above furniture
- Extremely sturdy and robust – wind rated to 80km/h
- Huge canopies provide maximum shade protection
- Water repellent canopy also offers rain protection
- Multiple umbrellas can be joined with removable gutter system
- Non-permanent installation – can be removed from mounting if required

Canopy secured with stainless steel bolts for durability

Robust telescopic mast means the umbrella closes high above furniture

Can be bolted down to existing concrete, wooden decking or concreted into the ground

Heavy duty hubs and arm connectors for superior strength

Extremely strong aluminium arms with joint reinforcements

Internal gearbox hidden in mast with removable winder handle

**Printing & Branding** - The Tempest commercial umbrella can be screen printed easily and affordably with big logos for maximum brand exposure. Our design team will prepare a draft print layout for your approval so you can see exactly how the printed umbrella will look once production is completed.

**Canopy** - Tempest umbrella canopies are manufactured using European made 100% solution-dyed acrylic canvas. This premium marine-grade fabric comes with a 5 year warranty against fading, material breakdown and rot. It also has the highest UPF 50+/SPF100 rating, cutting out 98% of harmful UV light for maximum sun protection.

## Dimensions
